

E(u)-leaders are here!

We have shaped the new era of leadership!

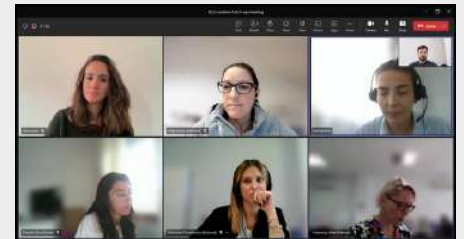

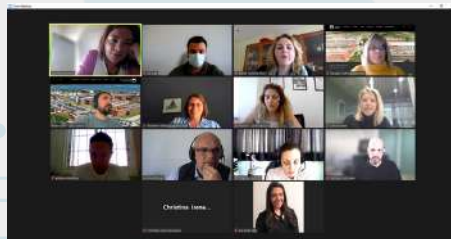

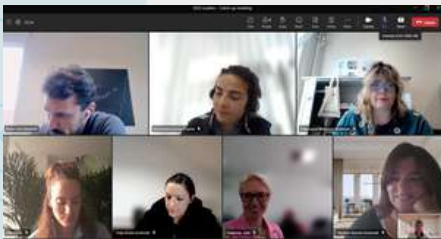

The E(U) Leaders Project is dedicated to embracing the evolving landscape of leadership by harnessing the power of digital tools and e-leadership capabilities. We invite you to delve into our shared project results and unite with us on this path of profound change. Collaboratively, we are molding the destiny of leadership, embracing innovation one step at a time.

The E(U) Leaders Project aims to empower entrepreneurs, employers, leaders, managers, VET trainers, mentors, and educators with the e-leadership skills necessary to navigate virtual working environments effectively.

We have developed a range of multilingual and free of charge digital tools shaping e-leadership!

The team worked hard and achieved its mission.

Over 25 online meetings.

Transnational Project Meetings (Germany, Cyprus, the Netherlands).

The project comes to its end.. ➡

During October and November, partners organised and held in their countries a series of exciting Multiplier Events and the Final Conference. Project partners presented the project and its project results to a wide audience.

We met for the last time in the Netherlands!

The meeting took place in Rotterdam in 01.11.2023 – 02.11.2023 and was hosted by Nefinia. We discussed thoroughly the last details, and we celebrated our success.

Check our multilingual and free of charge project results! 

e-leadership Guidebook of inclusion of best practices on suitable digital working environments.

The Guidebook includes examples of good practices already established at a European level, promoting e-strategies and e-tools organisations adopted in their daily management for ensuring the efficient virtual working environment of their employees.

e-leadership Model adopted within tech-based and non-tech-based organisations.

The E(U) Leaders partnership has developed an e-leadership Model which is targeting entrepreneurs, employers, leaders, managers who are managing their teams virtually. The aim of the Model is to identify the training needs, challenges and gaps e-leaders face when managing virtual working environments and teams.
